INTRODUCTION

The 12th IWDW, International Workshop on Digital-forensics and Watermarking (IWDW 2013) is a premier forum for researchers and practitioners working on novel research, development and applications of digital watermarking and forensics techniques for multimedia security. We invite submissions of high-quality original research papers. Each submitted paper will be reviewed by at least two reviewers. Two prizes are to be awarded for the best paper and the best student paper, respectively. The proceedings of IWDW13 will be published on the Lecture Notes in Computer Science (LNCS) by Springer.

INSTRUCTIONS TO AUTHORS

Submissions must be made as a PDF file of no more than 15 pages. Please submit your manuscripts written in English. Templates are available at <http://www.springer.de/comp/lncs/authors.html>. To be included to the proceedings, at least one author of each paper should register and present the paper.

IMPORTANT DATES

Paper Submission:

16 June 2013

Notification of Acceptance:

1 August 2013

Submission of Camera-Ready

Versions:

10 September 2013

AREAS OF INTEREST

Areas of interest include, but are not limited to:

- Mathematical modeling of embedding and detection
- Information theoretic, stochastic aspects of data hiding
- Security issues, including attacks and counter-attacks
- Combination of data hiding and cryptography
- Optimum watermark detection and reliable recovery
- Estimation of watermark capacity
- Channel coding techniques for watermarking
- Large-scale experimental tests and benchmarking
- New statistical and perceptual models of multimedia content
- Reversible data hiding
- Data hiding in special media
- Data hiding and authentication
- Steganography and steganalysis
- Digital multimedia forensics & anti-forensics
- Copyright protection, DRM, and forensic watermarking
- Visual cryptography
